

Visitation Information

The Following are names and addresses of friends and/or relatives of the family. If possible, I would like my child to have an opportunity to visit them. I understand that visits will only be made to those people listed below. I also understand that visits will be made only with the approval of the group leader.

Many parents give their child blanket permission to visit other participant's relatives and friends. The final decision regarding visitation arrangements rests with Shorashim staff.

Although Shorashim staff will assist participants in making arrangements to meet friends and family, Shorashim and its staff are not responsible for participants when they have left the group or they are in transit.
